Mack

Deliveries from Mack through May totaled 16,054 units, up 11% from the same period a year ago. The deliveries figures continue to reflect the strong order environment from late 2005 through the first quarter 2006. Order intake in May continued to slow down from historical high levels, as production slots for pre-EPA '07-compliant truck models became filled for the rest of 2006.

Volvo Trucks

Volvo Trucks' deliveries during the period January-May amounted to 42,516 vehicles, a decrease of 4% compared with the year-earlier period. The reduction can be explained by lower delivery volumes to Iran. Excluding this market, deliveries increased by 9%.

Deliveries in Europe increased by 10%. On the Polish and Russian markets, the positive trend continued with deliveries increasing by 83% (943 vehicles) and 95% (825 vehicles). Germany saw an increase of 32% with deliveries totalling 2,052 vehicles (1,550). In North America deliveries increased by 17% with the number of trucks delivered totalling 15,036 vehicles (12,892).
