## Press release

# AB Volvo publishes 2010 Sustainability Report

**The Sustainability Report describes the Volvo Group's efforts to develop its operations financially, socially and environmentally, as well as its contribution to society. The report also outlines how the Volvo Group organizes its work, its strategies for the future and key figures for the operations.**

The report is an important platform for dialog with investors, employees, business partners and other stakeholders.

From a sustainability perspective, the key events for the Volvo Group in 2010 were as follows:

- The Volvo Group's sustainability efforts qualified for top rankings in external evaluations, such as the Dow Jones Sustainability Index World (DJSI World).
- The Volvo Group was the world's first automotive manufacturer to join the Worldwide Fund for Nature's (WWF) Climate Savers initiative.
- Expanded customer offering of vehicles that can operate on renewable fuels, as well as hybrid technology.
- About 20,000 employees participated in a training program on the Group's Code of Conduct and our guidelines for countering corruption.
- Introduction of new Group-wide policy for work environment, health and wellbeing.
- To face future challenges and growing stakeholder expectations while generating growth and new business opportunities, the Volvo Group has decided to review its CSR-strategy during 2011.
